ABOUT UNITED NETWORKS LIMITED

United Networks Limited (ASX:UNL) is a global mobile connectivity and real-time platform provider. The United Trust is a complete, turnkey customer engagement ecosystem that enables our enterprise partners to connect and engage with their end users through its suite of products.

United Networks is building a connected caring community. Our solutions include: global connectivity, duty of care, live messaging and rich data analytics. The products include a Global SIM that connects to over 190 Countries, Unlimited Wi-Fi App that connects to 64+ million hotspots, Luggage Trackers and integrated SOS Alerts management module.

United's strategy is to enter into relationships with Enterprise Partners by providing white-label solutions to these partners client base. United links its products with the core partners product and adds value by bundling services which help travelers worldwide with their connectivity, messaging and duty of care in the event of a crisis.

News Release

Chubb launches value-added services for Leisure Travelers

CHUBB®

October 12, 2017 – Chubb today announced the launch of a suite of value-added services for leisure travelers. Known as [Chubb Connect](#), these services include complimentary Wi-Fi and SOS Alerts as a start. Piloted in Australia since May this year, Chubb Connect is now also available in New Zealand and Singapore. The app will be launched progressively to other countries in the region in due course.

Jon Ford, Head of Partnership Distribution for Chubb Asia Pacific, said, “We know that when our customers are traveling, access to Wi-Fi connectivity is considered highly valuable and important to enhance their travel experience. With the Chubb Connect app, not only do customers stay connected but they can also opt to receive SOS alerts informing them of travel disruptions as and when these happen. Delivered in real-time via the app, SMS and email, our customers can make informed decisions before and during their travels. The app also connects travelers to our 24/7 Emergency Hotline if they require help in a foreign land.”

“With the rise of the middle class in Asia Pacific, the number of overseas trips continues to increase substantially. In addition, smartphone connections in Asia now account for more than 50% of mobile connectivity globally¹. Operating in such a highly connected and mobile region, Chubb recognizes the need to provide our customers with value-added services in addition to insurance protection and assistance. Chubb Connect will represent significant additional value to our leisure travel customers and partners” added Alex Blake, Chubb’s Global Head of Travel Insurance.

Chubb Connect is powered by [United Networks](#), an Australian-owned global telecommunications provider offering telecommunications, data and value added services since 2009.

About Chubb

Chubb is the world’s largest publicly traded property and casualty insurance company. With operations in 54 countries, Chubb provides commercial and personal property and casualty insurance, personal accident and supplemental health insurance, reinsurance and life insurance to a diverse group of clients. As an underwriting company, we assess, assume and manage risk with insight and discipline. We service and pay our claims fairly and promptly. The company is also defined by its extensive product and service offerings, broad distribution capabilities, exceptional financial strength and local operations globally. Parent company Chubb Limited is listed on the New York Stock Exchange (NYSE: CB) and is a component of the S&P 500 index. Chubb maintains executive offices in Zurich, New York, London and other locations, and employs approximately 31,000 people worldwide.
